A Beneficial Change

Signature Medical Spa is a place of renewal and enhancement where we combine the power of medicine with the aesthetic experience of a spa. Here we create individual treatment programs and produce results that will make you feel good about your skin and appearance for a lifetime.

WHY A MEDICAL SPA?

We invite you to discover what the experts can do for your face and body at Signature Medical Spa. As central Virginia's most comprehensive laser and aesthetic dermatology center, we provide treatments and products that safely and effectively enhance your appearance. Enjoy increased confidence, a youthful glow and beautiful skin. With so much happening in the field of cosmetics and aesthetic dermatology, our doctors, nurses and aestheticians will help you separate the hype from the reality.

Dr. Bonnie Straka

The foundation of all our services is a Cosmetic Consultation. We take a complete medical history, examine your skin and discuss what you like about your skin and what you'd like to change. Depending on your needs, an aesthetician, nurse and/or dermatologist will then develop an individual treatment plan focused on results.

Signature Medical Spa is a division of Albemarle Dermatology Associates.

Practitioners include dermatologists, nurses and licensed aestheticians. Preserving and protecting your skin in a beautiful and peaceful medical environment is what sets us apart.

REJUVENATION THROUGH TECHNOLOGY

Fraxel re:pair™ — a revolutionary treatment that gives your skin a fresh, youthful appearance with just one session; used to treat acne scars, pigmentation, skin laxity and wrinkles*

Volumizers and Dermal Fillers — treatments such as Juvéderm™, Radiesse®, Restylane®, Perlane® and Sculptra™ are used to erase wrinkles and restore fullness to aging skin, including frown lines, laugh lines, cheek, nose, lips and under-eyes*

Botox — a quick, easy and highly effective way to eliminate lines and wrinkles*

IPL (Intense Pulsed Light) — an exciting technology using photo rejuvenation that provides collagen stimulation to reduce superficial lines and wrinkles; removes brown spots and redness; also treats acne; ideal for clients with active lifestyles as there is no downtime*

Thermage® — provides collagen stimulation to lift, smooth, tighten and contour skin, restoring skin's youthful tone and texture: non-invasive treatment starts at \$2500
